

PetLoverStake [PET♥]

ROADMAP

v1.0 (March/2022)

Pool registration, March 15th, 2022.

Ticket: [PET♥]

Pool Id: d8cc8d4198e23dbc5685c6682e6ea06e82fbd93879e42086e64ccc21

OBJETIVES:

PetLoverStake is a Cardano Staking Pool, with the objective of generating income in crypto currency ADA for the financing of native ecological projects related to pet care, wildlife and the environment. The eco-projects will be gradually developed in stages based on the benefits generated by the Pool.

PetLoverStake is created and developed by a group of friends, animal lovers, committed to the care and protection of our environment. The conception of PetLoverStake includes Coordinators around the world, in charge of organizing the different native eco-projects for whose financing will be allocated a percentage of the Pool's income.

Three Ages have been planned for the development of the Project, based on the expected income of the pool. During the first age, social media and initiatives will be carried out seeking to capture the attention of delegators who contribute to the staking, in order to start the blocks production. In ages 2 and 3 PetLoverStake will be more focused in the development of native eco-projects according with the available funds.
